PC' s by **CAMLAB**

Our History

Camlab has always been a family run business, founded by Ted Cambray in 1978, it is now owned & run by his son Phil and his wife Maria.

During the 1980's Camlab became a leading local supplier of electronic components, audio / video cables and accessories. Computer cables, accessories and components soon became a major part of our business and in 1999 due to customer demand we launched our own brand of custom made PCs – DNA computers.

We now specialize in all types of computer components, from fans to flat screen monitors, custom made PCs, Laptops and audio/video cables & accessories.

We also have a very busy workshop performing repairs and upgrades on all makes of PCs and Epson & HP printers.

In 2003 we were appointed EPSON Express Centre for the local area, which means we can handle the warranty procedure for Epson printers regardless of where they were purchased. We also offer a "first aid" repair service to out of warranty Epson printers. Our Express Centre status also give us exclusive access special offers and promotions run by EPSON and of course the best prices on EPSON inks and paper!

We have recently introduced home delivery and mail order services accessible via our on-line shopping website or by phone. Our website www.camlab.net is your reference point where you can check our prices download leaflets on our PC range, see details of special offers and find all our contact details and opening hours.

Why buy from us

Quality & Reliability

- All our systems are built to order, and are assembled on-site at Camlab, fully tested with every component used. So when you get our system home, you just plug 'n' play!
- We only use parts which are known in the industry for reliability, not because they are cheap!

And last but not least - Our After Sales Service

- Local telephone support service, with a local number. **No overseas call centre nightmares!**
- Email support & remote access
- FREE Help & Advice on 'How to do something with your pc!
- Direct warranty with Camlab in Swindon.
